

Neighbourhood Plan Report 2018

- As advised by the VOWH, we carried out Housing Numbers and Land Capacity studies in 2017 and these now form the basis of the main policies
- At the last public meeting in November we consulted on our early draft of the policies.
- In December 2017 the Vale Local Plan Pt1 was adopted. Part 2 has now been drafted and is with the independent examiner for comment.
- Since then we have been drafting our own plan based on feedback from the public consultations and the Vale Local Plan Pt1/2.
- We have 'informally' discussed the draft Plan with the Vale and our consultant and are making the suggested changes now in order to minimise changes when it is formally submitted. These changes are mainly to align our policies better with the Vale Local plans – with which we have to 'be in general conformity' !
- We will be holding a public consultation event on 24 April, here at the THMH from 7.30pm, to explain the final draft before issuing it for comment from YOU, THE parishioners in early May.
- Once issued it will remain open for your comments for a statutory 6 weeks.
- After the 6 weeks we will consider and incorporate any comments received before submitting the Plan.
- Details of the next steps after this will be explained at the Public Consultation on April 24th.
